

## Customer Testimonials

“Being the first Australian partner to achieve the NEW Advanced Collaboration Architecture Specialisation, Allcom have set the challenge for other partners to be the first in Cisco’s remaining architectures.”

*Cisco Systems Australia, 2011*

“Allcom listen. When we decided that we needed a technology partner to help us deliver our overall technology strategy from the ground up, Andrew and his team delivered. Their ability to think outside the box and provided business driven solutions to meet our needs were second to none. I highly recommend their services and continue to work with them 3 years on. We were able to be open and honest with one another, set up our upfront goals and budgets, and Allcom helped us accomplish all we set out to achieve efficiently and effectively within our budget and timeframes.”

*Simon Sayegh - Director Technology and Projects Standards Australia*

“Our business relies on being able to deliver our services when and where our customers’ needs. Allcom ensures this prime objective is met with the services commissioned globally - on time and within budget, every time.”

*Darren Wilson – Director Customer Service, Telstra International*

“Allcom have been a trusted adviser for all our technology requirements including network infrastructure, unified communications and beyond for the past six years. Allcom always provide tailored solutions to meet our complex business needs. The team work hard to ensure projects are delivered within budget, on time and with appropriate technology.”

*Debbie George – General Manager, Counsel’s Chambers Limited*

“Allcom's expertise has been instrumental in helping us create custom data solutions to meet the unique challenges of operating a global business from regional Australia.”

*Tim O’Connell - Danthonia Designs, Inverell NSW*
